**Question: There is cheaper jewelry for sale elsewhere. Why should I pay more for one of your designs?**

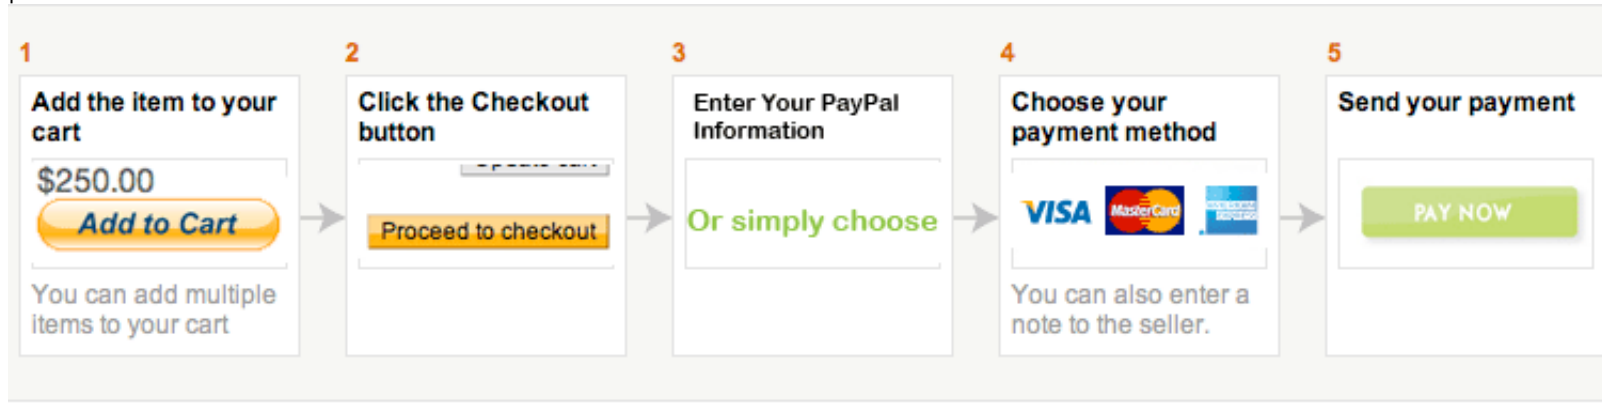

Answer: There will always be jewelry available at different prices. It depends on the quality of what you are purchasing. I make most of my jewelry from "scratch" - using my own handmade findings. For each and every one of my designs I have hand selected the finest gemstones. My goal is to create a quality product that has the future potential of increasing in value.
